Swaraj Mandal

Full-Stack Software Engineer | Java, Spring Boot, Laravel, React.js

Durgapur, West Bengal, India | +91-9547283899 | swarajmandal7@gmail.com | linkedin.com/in/hiswaraj | github.com/hiswaraj

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 3+ years of experience designing, developing, and deploying enterprise web applications, Learning Management Systems (LMS), and University ERP platforms. Proficient in Java, Spring Boot, Node.js, PHP, and Laravel on the backend, and React.js and JavaScript on the frontend. Experienced in RESTful API design with Swagger/OpenAPI, CI/CD automation with Jenkins, and MySQL/PostgreSQL schema and query optimization. Works in Agile teams and presents to enterprise clients. Working knowledge of AI coding platforms such as Claude Code, Antigravity, and Codex.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), PHP

Backend Frameworks: Spring Boot, Node.js, Laravel

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Sass

Databases and Messaging: MySQL, PostgreSQL, RabbitMQ, Asynchronous Events

Architecture and Concepts: RESTful APIs, OpenAPI/Swagger, Microservices, OOP, Multithreading, MVC

DevOps and Servers: Jenkins, CI/CD, Apache Tomcat, NGINX, cPanel, Cloudflare, DNS

Tools and Methodologies: Git, GitHub, Jira, Postman, Agile/Scrum

AI Coding Tools: Claude Code, Antigravity, Codex (working knowledge)

PROFESSIONAL EXPERIENCE

Software Engineer | Ebest Solutions Pvt. Ltd. | Durgapur, India

Aug 2023 – Present

- Architected, developed, and maintained enterprise University ERP and LMS platforms for major institutions using Java, Spring Boot, and Laravel.
- Built features with React.js, Node.js, and JavaScript on enterprise applications, working with cross-functional teams.
- Designed and built RESTful API endpoints and maintained API contracts with Swagger/OpenAPI.
- Standardized Jenkins CI/CD build pipelines to automate deployments across Apache Tomcat, NGINX, and Apache servers.
- Optimized relational database schemas, multi-table joins, and indexing strategies in MySQL and PostgreSQL to achieve sub-second query execution on large datasets.
- Delivered product demonstrations to enterprise clients, including Medhavi University, DY Patil University, Raiganj University, and VV Giri University.
- Traveled on-site to Patna for VV Giri University and led requirement gathering, stakeholder communication, and end-to-end product setup.

KEY PROJECTS

Eduscation – Enterprise ERP and LMS Suite | eduscation.com

Spring Boot, Laravel, React.js, RabbitMQ, Jenkins, Tomcat, Swagger/OpenAPI

- Architected a university management platform combining an enterprise ERP, HRMS, online admission portals, and a Learning Management System.
- Built ProctorMind, an online examination module integrated with Safe Exam Browser (SEB) that restricts the examinee's desktop environment to prevent cheating during virtual assessments.
- Deployed at Kazi Nazrul University, Bankura University, MATS University, Medhavi University, Himalaya University, VV Giri University, and Xaviers University.

HelpEzy – Multi-Vendor Home Services Marketplace | helpezy.com

Laravel, PHP, React.js, MySQL, REST APIs

- Developed a multi-vendor marketplace connecting customers with verified, highly rated local home service professionals.
- Built real-time booking, service matching, and automated event notification processing in Laravel.

FixMyBuild – UK Tradesperson Marketplace | fixmybuild.com

Laravel, PHP, MySQL, MVC Architecture

- Built the backend architecture for a UK marketplace connecting homeowners with certified construction, HVAC, and trade professionals.
- Optimized database schemas to support user verification, localized service search, and secure project bidding workflows.

Kazi Nazrul University Content Platform | knu.ac.in

Laravel, Custom CMS, MySQL, Frontend Technologies

- Led end-to-end development of the official university website, including a custom Content Management System (CMS) built from scratch.
- Gave administrators control over dynamic web pages, academic notices, and institutional publications for a site serving thousands of daily student visitors.

DCS Cab – Ride Booking Application

Laravel, PHP, REST APIs, MySQL

- Developed RESTful APIs in Laravel for a real-time cab booking mobile application.
- Built secure endpoints for rider-driver matching, trip routing, and fare processing.

Dairy on Demand | dairyondemand.com, dairyondemandretail.com

Laravel, PHP, REST APIs, Swagger/OpenAPI, MySQL

- Developed both website platforms for a high-volume, Dubai-based daily subscription e-commerce service.
- Built RESTful APIs for the mobile applications, including zone-wise delivery routing and recurring order scheduling.

Notified Design Integration | notified.com

HTML5, CSS3, JavaScript

- Worked with a front-end team to finalize the responsive HTML and CSS layout for the platform.

EDUCATION

Bachelor of Computer Application (BCA) | 2020 – 2023

Institute of Computer and Information Sciences, India

CGPA: 9.1 | Higher Secondary (12th): 75% | Madhyamik (10th): 80%
